Admission Standards for Public Pools

"Admission Standards for Public Pools" were developed by the Office of the Coroner of Ontario to assist Lifeguards and Assistant Lifeguards in maintaining adequate surveillance over the whereabouts and the activities of young bathers while they are inside the pool enclosure. The Ontario Ministry of Health and Long Term Care strongly support these recommendations for the purpose of preventing injuries and fatalities.

1. Children 5 years of age and younger must be accompanied by a parent or guardian 12 years of age or older. The parent or guardian is responsible for their direct supervision and must be in the water and within arms reach of the child(ren) at all times. A parent or guardian may not supervise more than 2 children at any given time.
2. Children 6 to 9 years of age must be accompanied by a parent or guardian 12 years of age or older. The parent or guardian is responsible for direct supervision & must be in the water. If the child can swim and pass a facility swim test, the parent or guardian does not have to remain within arms reach of the child, however, must remain in the pool enclosure to provide supervision of the children and remain in visual contact. Supervision 1:2 ratio for non-swimmers, 1:8 ratio with lifejackets and 1:10 ratio for children able to pass facility swim test.
3. Children 10 years and older may swim without adult accompaniment.

FACILITY SWIM TEST:

SHALLOW: swimmers must be able to swim one (1) width . Completed Swim Kids 3 or equivalent.

DEEP END:To swim in the deep end, swimmers must be able to swim two (2) widths or one (1) length of the pool successfully
