Re: Brock St East (Hwy 47) & Herrema Street, Uxbridge

To Whom It May Concern:

I have been an archaeologist for over twenty years in Ontario and have been President of an Archaeological Consulting Firm since 2003. I have held a professional License for the past 17 years and conduct hundreds of stage 1-4 investigations every year over this province.

I was contacted to see if the above mentioned property warrants an archaeological investigation. It was clear looking at air photo's of the property and quick drive by of the property that the property has been extensively disturbed with servicing and grading. In my opinion, this property has been extensively disturbed and does not merit an archaeological investigation.

Sincerely,

The Archaeologists Inc.

A handwritten signature in blue ink that reads "Keith Powers". The signature is fluid and cursive, with a long horizontal stroke at the end.
