PART ONE - INTRODUCTION is included for information purposes and is not an operative part of this Official Plan Amendment.

PART TWO - THE AMENDMENT, consisting of the text and schedules attached hereto, is an operative part of this Official Plan Amendment.

THE APPENDICES are not an operative part of this Official Plan Amendment.

PART ONE - INTRODUCTION

1. PURPOSE

The purpose of Amendment No. 50 is to amend ~~to amend~~ the provisions of the Township of Uxbridge Official Plan, under Section 26 of the Planning Act, R.S.O.1990, c.P.13 to implement the results of the Five Year Review of the Official Plan, including the Provincial Growth Plan conformity exercise.

2. LOCATION

This Amendment applies to all the lands in the ~~Uxbridge Urban Area of the~~ Township of Uxbridge.

3. BASIS

~~Section 26 of Planning Act requires an Official Plan review at a minimum every five years. A particular focus of such a review is to ensure that the Official Plan conforms with provincial plans, or does not conflict with them; has regard for matters of provincial interest; and is consistent with policy statements issued under the Planning Act.~~

~~This direction is particularly relevant because, since the approval of the Township's last Official Plan update, despite a range of significant specific amendments undertaken by the Township; there have been a number of important Provincial planning initiatives. Those relevant to the Township of Uxbridge include a revised Provincial Policy Statement (PPS), and the Growth Plan for the Greater Golden Horseshoe (Growth Plan), as well as the Greenbelt Plan and the Lake Simcoe Protection Act and Lake Simcoe Protection Plan. In addition, the Durham Regional Official Plan has been reviewed and updated,~~

~~The Township undertook a review commencing in 2009 which focused on issues arising from changes to Provincial policy, in particular the Growth Plan, and the recent, related updates to the Regional Plan, as well as various studies and plans undertaken by the Township (e.g Downtown Vision and Action Plan), all of which relate primarily to the Uxbridge Urban Area. These issues included residential intensification, employment areas, commercial structure, sustainable development and affordable housing, as well as a range of specific matters such as the potential for using a development permit system with respect to the Moraine, rather than a zoning by-law.~~

~~At the same time, it was a fundamental premise of the review that the current overall approach of the Plan, which relies on the Regional Plan for the primary policy direction in the rural area and the majority of the hamlets, would not~~

i) Background Review

This stage involved a review of the available background information and determination of the implications for the Official Plan. The results of this stage are summarized in the Background and Future Directions Report, February 2010, together with required policy directions as established in provincial policy, as well potential policy directions for other matters. A public open house was held in February 2010 to review the results of this work.

ii) Official Plan Amendment Preparation

Based on the background work, a draft Official Plan amendment was prepared. The draft amendment was reviewed at a statutory public open house and formal public meeting held in accordance with the requirements of the Planning Act. These meetings were held in May 2010. Submissions received from the public and agencies were analyzed and a formal response prepared together with recommended modifications to the amendment. The revised amendment was then submitted to Council for approval.

This amendment reflects the results of the background research and the input from the public and agencies. It modifies the Official Plan to provide direction for the Township to the year 2031 within the framework of Provincial policy and the Durham Region Official Plan.

Recent amendments to the Planning Act permit municipalities to regulate the external design of buildings and control the placement of sustainable design elements on adjoining roads through site plan control, if the official plan contains policies relating to such matters.

Urban design and concern with sustainable development have always been a significant issue in the Uxbridge Urban Area, given its heritage character, location on the Uxbridge Brook and proximity to the Oak Ridges Moraine and the Green Belt. The Uxbridge Urban Area Secondary Plan already reflects these directions as it includes detailed policies related to urban design in Section 2.4, Community Design Strategy, and to the environment in Section 2.3, Natural Heritage System. However, the concern with urban design and the environment has become more significant because of the amount of intensification which the

~~Urban Area is experiencing, and is expected to continue to experience, given the restrictions on any expansion of the urban boundary. There is a need for additional tools to assist in ensuring the new development is in harmony with the heritage of the community, and is sustainable.~~

~~In this context, Council considers it essential to have the ability to provide for more sustainable development and improved urban design through site plan control. While the Uxbridge Urban Area is still a small town, it must deal with urban style development. Urban regulations are important to control the more intensive, urban development which is occurring in the Uxbridge Urban Area. These policies should also include additional urban design policies to provide direction in the implementation of the new controls.~~

PART TWO - THE AMENDMENT

1. PURPOSE

~~The purpose of Amendment No. 50 is to amend the Official Plan to permit, in the Uxbridge Urban Area, the regulation through Site Plan Control of the external design of buildings and the placement of sustainable design elements on adjoining roads, and to include in the Community Design Strategy of the Uxbridge Urban Area, additional direction related to external building design. The purpose of Amendment No. 50 is to amend the provisions of the Township of Uxbridge Official Plan, under Section 26 of the Planning Act, R.S.O.1990, c.P.13 to implement the results of the Five Year Review of the Official Plan, including the Provincial Growth Plan conformity exercise.~~

2. THE AMENDMENT

The Official Plan of the Township of Uxbridge is hereby amended as follows:

1.2.2 Downtown Vision

Downtown Uxbridge is the vibrant focus of a thriving small town set in rolling hills and reflecting its strong agricultural heritage.

There is an active street scene, with people - residents and visitors - shopping, browsing, enjoying the company of friends in restaurants and cafes, and strolling along pleasant and attractive streets. A range of stores, more varied and attractive than in the past, and other commercial enterprises, many run by local entrepreneurs, has made it attractive as a place to shop and conduct business. Vacant stores are a thing of the past. The pedestrian orientation of the downtown streets is evident from the modest flow of traffic, with few trucks. A small park, or "town square" in the centre of town provides a focal point for community activities, or for simply relaxing in a pleasant park setting. The town's farming roots are evident from the colourful farmer's market that attracts both residents and visitors, and provides a valuable means for area farmers to offer their produce. A grocery in the downtown provides essentials without the need for a car.

The Uxbridge Brook, once completely out of sight in the downtown area, is once again visible, providing an attractive natural feature to complement the large shade trees along the main streets. The streets themselves reflect Uxbridge's heritage and history, with buildings that have had their exteriors remodeled or renovated in keeping with established heritage guidelines, and signage and street furnishings in tasteful harmony. The rear aspects of buildings facing public areas are no longer an eyesore. The older heritage buildings are complemented by some newer structures (some replacing eyesores or deteriorating buildings), some of which may be more modern in design, but enhance the character of the town.

Uxbridge's reputation as an intensively artistic community is evident from the many works of public art installed around the town, giving it a unique character. And its designation as "The Trail Capital of Canada" is evident from the extensions of the extensive trail system that reach into the downtown, enabling people to walk or bicycle from downtown into surrounding natural areas. Ease of access is provided through numerous public parking areas, well-marked and attractive in design and landscaping. Similarly, ease of access for the physically challenged is provided at most stores and all public facilities. The downtown has a diversified population of residents, with accommodation suited to varying economic levels.

In short, downtown Uxbridge is a place that attracts visitors and tourists, and tempts travelers to stop and explore, with appropriate accommodation for those who wish to stay overnight. The downtown offers a good livelihood to business

enterprises located there, and provides a commercial and recreational focus for residents.

Uxbridge is a small town in a rural community, with a downtown that has become an attractive destination for visitors and an effective focus for residents, through a bold approach by the Council and the community, including enlightened planning, good design and wise investment of resources.”

The Sustainability Strategy provides a framework for the implementation of this principle as it relates to development form and the establishment of an Integrated Community Sustainability Plan (ICSP) for the conservation of water, air quality, energy, natural heritage and other resources, as well as waste reduction, transportation and environmental monitoring and education. Related policies for cultural heritage conservation are found in Section 1.4 of this Plan.

1.6.2 Development Form

The Township will encourage, in accordance with the policies of this Plan, and recognizing that the community is primarily a rural area, development based on the principle of sustainable development, including Township facilities. The Township will work with other public agencies to encourage them to follow the same principle. In particular, the Township will encourage development designed to:

- (a) reduce the consumption of energy, land and other non-renewable resources including support for energy efficient building and opportunities for co-generation and promoting the use of innovative and sustainable practices to achieve energy efficiencies;
- (b) minimize the waste of materials, water and other limited resources;
- (c) create liveable, healthy and productive environments;
- (d) reduce greenhouse gases; and,
- (e) enhance biodiversity, ecological function, and the natural heritage system.

1.6.3 Integrated Community Sustainability Plan

An ICSP is a long term plan, developed in consultation with community members that provides direction for the community to realize the sustainability objectives it has for the environmental, cultural, social and economic dimensions of its identity.

The Township, together with the Townships of Scugog and Brock, will develop an ICSP in consultation with other agencies including the Region of Durham and affected Conservation Authorities. The Plan will build on existing initiatives of the Township and be designed with specific, achievable actions which reflect the Township’s financial

- a) there is a need for the conversion;

- b) the Township will meet the employment forecasts allocated to the Township pursuant to the Durham Regional Official Plan;
- c) the conversion will not adversely affect the overall viability of the employment area, and achievement of the intensification target, density targets, and other policies of this Plan and the Durham Regional Official Plan;
- d) there is existing or planned infrastructure to accommodate the proposed conversion;
- e) the lands are not required over the long term for the employment purposes for which they are designated; and,
- f) any cross-jurisdictional issues have been considered.

For the purposes of this policy, major retail uses are considered non-employment uses.

In accordance with the Planning Act, there is no appeal with respect to a decision of Township Council to refuse, or fail to adopt, any official plan or zoning by-law amendment application that proposes to remove any land from the Employment Area designation.

1.8.5 Secondary Agricultural Uses

Home industries, home occupations/home businesses, and bed and breakfast and farm vacation uses are permitted subject to any relevant policies of the Durham Regional Official Plan, this Plan and the regulations of the zoning by-law. Additional secondary agricultural uses that produce value-added agricultural products from the farm operation on the property and which may also utilize agricultural or other products from other farm operations in the Greenbelt, farm-gate sales and retail stands for the sale of agricultural products from the farm on which the stand is situated, which may also sell products from other farm operations in the Greenbelt, and agri-tourism uses such as farm tours may also be permitted provided that they are:

- a) directly related to or exclusively devoted to the farm operation and do not alter the principal use of the property for agriculture;
- b) generally limited to one for each farm operation and small scale in nature; and,
- c) operated and located in a manner which is compatible with surrounding farming operations.

Such uses shall be permitted subject to any relevant policies of the Durham Regional

1.8.6 Community Gardens

Community gardens help to support people who could not otherwise afford the time, effort and land, and may not possess the skills or experience to maintain gardens on their own property. The Township supports the creation of community gardens which contribute to community food security. Community gardens shall be permitted in any area of the Township where agriculture operations are permitted outside of key natural heritage and hydrological features and related vegetative protection zones and any area which may have soil contamination. They shall also be permitted in the hamlets and in the Uxbridge Urban Area.”

1.8.7 Hamlets

The four hamlets in the Township designated in the Durham Regional Official Plan outside the Oak Ridges Moraine are Udora, Zephyr, Leaskdale and Sandford. Development in these hamlets shall be permitted in accordance with the policies of the Greenbelt Plan and the Durham Regional Official Plan. In addition, the regulations of the Township Zoning By-law shall be taken into consideration. The boundary of each hamlet shall only be permitted to expand once in accordance with the provisions of the Greenbelt Plan. The following shall be considered in determining the final size of the hamlet and the establishment of the hamlet boundary:

- a) the environmental sensitivity of the lands;
- b) the size of the hamlet, including portions within adjacent municipalities;
- c) the impact on the character of the hamlet;
- d) the potential to develop the hamlet in depth by utilizing a grid system of roads;
- e) the impact on the adjacent agricultural activities; and,
- f) the recommendations of a recent hydrogeological report addressing the current conditions and the potential impact of additional development on the available water supply in terms of quantity, quality and sustainable yield, which may include the drilling of a test well or wells if required by the Region, and the potential impact of potential private sewage disposal systems on the groundwater supply in terms of bacterial and chemical parameters, as determined by the Region and the Ministry of Environment.

1.10 LAKE SIMCOE PROTECTION PLAN

The Lake Simcoe Protection Plan is applicable to the lands within the Lake Simcoe watershed in the Township. The Plan is designed to protect and restore the ecological health of the Lake Simcoe watershed. The Township in making decisions under the Planning Act or the Condominium Act, 1998 is required to conform with the applicable designated policies in the Plan and have regard to other applicable policies.

"1.110 ACCESSIBILITY AND VISITABILITY

1.110.1 Commitment

The Township is committed to implementing the Ontarians with Disabilities Act through:

- a) The continual improvement of access to municipal facilities, programs and services for those with disabilities; and,
- b) The provision of quality services to all members of the community with disabilities.

1.110.2 Accessibility Committee

The Township Accessibility Committee will provide input to the Township with respect to accessibility issues, including preparation and implementation of the annual Accessibility Plan. The Township will work with the Committee, residents, businesses and other organizations to identify barriers and propose options to overcome them, to develop education resources and monitor progress.

1.110.3 Principles of Universal Design

The principles of universal design will be applied to all public spaces where feasible depending on the financial resources of the Township, and within new developments to ensure access and visitability for all individuals, while recognizing the need for balance where cultural heritage resources are involved. Regard shall also be given to the Ontarians with Disabilities Act, Ontario Building Code, any Township heritage guidelines, and where appropriate, the Parks Canada Standards and Guidelines for the Conservation of Historic Places in Canada.”

2.3.3 Environmental Constraint and Environmental Potential Areas

2.3.3.1 Purpose

The Uxbridge Urban Area Natural Heritage System includes the Environmental Constraint Area designation on Schedules "A" and "B" and the Environmental Potential Areas 1 and 2 overlay designations on Schedule "B".

2.3.3.2 Environmental Constraint Area

- i) The Environmental Constraint Area designation includes provincially significant features which have been identified by the Conservation Authority as being critical components of the Lake Simcoe Natural Heritage System.
- ii) The features included in the Environmental Constraint Area designation include:
 - a) Provincially Significant Wetlands;
 - b) Woodlands of greater than or equal to 25 hectares in size; and,
 - c) Significant Habitat of Endangered or Threatened Species identifies and protects natural heritage features and linkages which are key components of the community's Natural Heritage System.
- iii) The permitted uses of land within areas designated the Environmental Constraint Area designation on Schedules "A" and "B" shall be the conservation, enhancement and preservation of the natural environment and non-obtrusive passive recreational uses which will have minimal impact on the natural environmental features and ecological functions of the area, including no net loss of fish habitat.
- iv) Development and site alteration shall generally not be permitted in the Environmental Constraint Area designation, subject to the confirmation of the boundary in accordance with the policies of Section 2.3.3.4.
- v) The only exceptions to the foregoing, are the following uses and facilities:

 - b) Unevaluated wetlands contiguous to Provincially Significant Wetlands;
 - c) Woodlands of between 10 and 25 hectares in size;
 - d) Significant valleylands;
 - e) Core winter deer yards;
 - f) Colonial waterbird nesting sites;
 - g) Rare vegetation communities; and,
 - h) Confirmed Provincial Life Science Areas of Natural and Scientific Interest.

- iii) Development and site alteration in the Environmental Potential Area 1 overlay designation, in accordance with the underlying land use designation on Schedule "A", shall be discouraged. Development and site alteration will only be permitted where it is demonstrated through an environmental impact study that no development shall occur in a key natural heritage and/or hydrologic feature and there will be no negative impacts on the natural features or their ecological functions.

- iv) Mitigation of impacts on the natural features or their ecological functions may include replacement approaches where approved by the Township, in consultation with the Conservation Authority. These may include enhancement or restoration on or off site.

2.3.3.6 Environmental Constraint and Environmental Potential Area Boundaries

- i) The areas included in the Environmental Constraint and Environmental Potential Area designations were identified based on a general background analysis. An environmental impact study shall be required for any development applications for lands inside or within 120 metres of an Environmental Constraint Area to better define the exact preservation requirements, buffer widths and boundaries. An environmental impact study required for lands in the Environmental Potential Area designation shall also examine lands adjacent to the designation in accordance with terms of reference defined by the Township in consultation with the Conservation Authority. The environmental impact study shall be carried out in accordance with the provisions of Section 2.7 of the Official Plan.
- ii) The boundaries of the lands in these designations can be refined without further amendment to this Plan subject to the approval by the Township, in consultation with the Conservation Authority, and the Ministry of Natural Resources where a Provincially Significant Wetland is involved, of an environmental impact study and/or other detailed information required by the Township.
- iii) Deletion of any significant area from the Environmental Constraint Area shall require an amendment to the Plan. Such an amendment shall only be approved based on an environmental impact study carried out or peer reviewed by the Township, in consultation with the Conservation Authority, and the Ministry of Natural Resources where a Provincially Significant Wetland is involved, at the cost of the applicant. Through these studies the Township must be satisfied that:

2.3.3.7 Exceptions

2.3.3.7.1 241 Reach Street

Notwithstanding the foregoing, development and site alteration shall be permitted on the lands in the Environmental Constraint Area designation on Schedules "A" and "B" described as 241 _Reach Street, in accordance with the policies of the Residential Area designation, provided it is demonstrated through an environmental impact study that there will be no negative impacts on the natural features or their ecological functions. Where impacts cannot be avoided, mitigation of negative impacts on the natural features or their ecological functions may include replacement approaches where approved by the Township, in consultation with the Conservation Authority. These replacement approaches may include creation, enhancement or restoration on or off site.

2.3.3.8 Lands south of Elgin Park Dr. west and north of Wooden Sticks Golf Course, and east of Uxbridge Brook

The external boundary of the Uxbridge Urban Area on Schedules "A" through "L" is fixed for a minimum of ten years from December 16, 2004⁵. It will be reviewed in accordance with the provisions of the Oak Ridges Moraine Conservation Act and the Greenbelt Plan. However, no expansion or lot creation may occur where the boundary would encroach into lands designated "Natural Core Area" or "Natural Linkage Area" in the Oak Ridges Moraine Conservation Plan and the Durham Regional Official Plan.

The following structural elements form the basis for the Township's growth management strategy for the Urban Area.

i) Built Boundary

Schedule "AD" identifies the "Built Boundary" as determined by the Province. Lands within the boundary are considered to be those parts of the Township that are already developed as of June 2006. Any development within the Built Boundary is considered intensification and contributes to the intensification target in Section 2.5.2.3 of this Plan.

ii) Designated Greenfield Areas

The lands between the Built Boundary and the Urban Area Boundary as designated on Schedule "D" are considered "designated greenfield areas". These are lands which are largely undeveloped. Development in these areas is required to contribute to the achievement of the minimum designated greenfield area density target in Section 2.5.2.3 of the Plan.

iii) Intensification Areas

Intensification areas which shall be developed in accordance with all the applicable policies of this Plan include:

- a) Lands designated as "Main Central Area", "Corridor Commercial Area", "Mixed Use Area" and "Brock St. Mixed Use Area" on Schedule "A";
- b) Lands designated as "Employment Areas" on Schedule "A";
- c) Unique Sites, which are primarily institutional uses, where significant existing land uses seek to redevelop in accordance with the applicable policies of this Plan; and,

d) Other vacant or underutilized sites, in particular larger, undeveloped properties in areas designated “Residential Area” not located in “~~Stable~~ ~~Established~~ Residential Areas” or in “~~E~~mployment ~~A~~reas”.

iv) Established Residential Areas

Established Residential Areas” consist of existing residential neighbourhoods where intensification potential would be modest and incremental in accordance with the policies of Section 2.5.5.3.1.

2.5.2.3 Growth Management Strategy

In accordance with the Durham Regional Official Plan:

- i) The population forecast for the Urban Area to the year 2031 is 16,480.
- ii) The Township’s housing mix target shall be established by the Region.
- iii) The employment forecast for the Township for the planning period is 8,970 jobs. The Township will strive to accommodate a significant percentage of these jobs in the Urban Area recognizing the limited amount of available land for employment uses.
- iv) In the Township’s designated greenfield area in the Urban Area, the density target is a minimum of 50 persons and jobs per hectare subject to the servicing and phasing policies of this Plan. This target is not intended, however, to be considered a minimum target on every parcel of land. In addition, increases in density for individual developments which conform to the other policies of this Plan shall be permitted.
- v) The Region’s intensification target for the Uxbridge Urban Area for 2031 is 1,042 new residential dwelling units to be provided within the Built Boundary. The Township will consider development commencing in 2010 as contributing to this target. Intensification proposals which exceed this target shall be permitted provided they conform all the applicable policies of this Plan.
- vi) To achieve the Town’s intensification target, the Town shall implement the following Intensification Strategy:

- a) Establish through this Plan and zoning by-law, minimum density ~~standards~~ requirements for development in identified intensification areas;
 - b) Permit limited intensification within Established Residential Areas of a scale and built form that reflects the surrounding area, subject to the criteria of Section 2.5.5.3.1;
 - c) Encourage the creation of accessory apartments within residential areas subject to the policies of Section 2.5.3;
 - d) Review existing zoning regulations and other development standards to remove barriers to intensification including parking standards and setback requirements, while still ensuring that new development respects the scale and built form of the surrounding area and conforms with the policies of this Plan;
 - e) Consider, based on the financial resources of the Town, the potential for reducing development charges and other Town fees for intensification projects;
 - f) Utilize the bonusing provisions of the Plan and other mechanism such as pre-zoning to encourage intensification;
 - h) Prohibit applications which result in the downzoning of sites which permit medium and high density housing; and,
 - i) Monitor intensification rates in relation to the Township's intensification target, including the collection of building permit information that indicates the number of residential units and non-residential floor space developed in the Built Boundary on an annual basis.
- vii) The Township shall ensure that the coordination of planning for, and investment in, infrastructure and public service facilities with land use planning is maximized to meet current and projected needs in an efficient and cost-effective manner. A review of current processes and procedures will be undertaken to implement this direction, together with regular monitoring."

“2.5.27 Local Commercial Area

2.5.27.1 Purpose

The Local Commercial designation applies to an area on the south side of Reach Street, west of Testa Road. The designation recognizes a small-scale mixed use centre which includes residential uses, as well as a range of commercial, service and other uses which serve the immediate surrounding area, as well as providing for specialized uses which serve the community as a whole.

2.5.27.2 Permitted Uses, Buildings and Structures

The permitted buildings and structures include the use of the buildings and structures existing as of June 28, 2010, and small scale additions to such buildings and structures, or new buildings in conformity with the policies of Section 2.5.27.4 for:

- a) small scale retail commercial, service commercial and personal service uses including a convenience store;
- b) residential units in conjunction with other permitted uses;
- c) offices, including a medical or dental clinic;
- d) day care centres; and,
- e) institutional and non-profit uses.

2.5.27.3 Prohibited Uses, Buildings and Structures

Notwithstanding the provisions of Section 2.5.27.2 the following uses shall be prohibited in the Local Commercial Area:

In addition, no garden centre use or other outdoor uses, including any outdoor storage shall be permitted.

2.5.27.4 Land Use Policies

The subject area is currently zoned to permit a narrow range of commercial and service uses, which may be extended to include other local convenience commercial and service uses which primarily serve the surrounding area. Prior to the approval of a zoning by-law amendment to permit any uses which serve the community as a whole, the Township shall be satisfied through the submission of relevant plans and other background information that:

- a) there is no feasible, alternative site available in the Main Central Area;
- b) sufficient parking for the proposed use can be provided on the site;
- c) any changes to the exterior of the buildings and structures and the landscaping on the property will maintain or improve the existing character of the area; and,

- iii) Uxbridge Urban Area Downtown as designated on Schedule "A";
- ~~iv) Temporary uses.~~

3.17.2 Goals

3.17.2.1 Oak Ridges Moraine Conservation Area/Greenbelt Plan Area ~~Temporary Uses~~

To provide a regulatory approach which will better ensure the protection of the natural environment in these sensitive areas, particularly key significant natural heritage and hydrological features.

3.17.2.2 Uxbridge Urban Area Downtown

To provide a regulatory approach which will encourage intensification, while ensuring high quality urban design which is sensitive to the cultural attributes of this community focal point.

3.17.3 Criteria

All classes of development or any use of land permitted by this Plan in the applicable development permit area may be included in the development permit by-law; however, the Township may exempt certain classes of development or uses of land such as agricultural and agricultural secondary uses and small accessory buildings from the need for a development permit. Exemptions may be considered in the Oak Ridges Moraine Conservation Area/Greenbelt Plan Area where there is no concern with impacts on key natural or hydrological features, and in the Downtown where there is no concern with impacts on adjacent development

3.17.4 Conditions

The types of conditions which may be included in any development permit by-law shall relate to any matter which implements the policies of this Plan and may include, but shall not be limited to a condition related to:

- i) the removal or restoration of vegetation;
- ii) site alteration including but not limited to the alteration or

- iv) ongoing monitoring requirements;
- v) the provision of specified facilities, services and matters in exchange for specified height or density of development within specific ranges;
- vi) the provision of features which enhance the sustainability of a development;
- vii) matters that would otherwise be prohibited for land described in paragraphs 3, 3.1 or 3.2 of subsection 34(1) of the Planning Act; and,
- viii) a requirement for the owner to enter into an agreement with the Township related to one or more conditions being imposed related to the development permit.

3.17.4 Delegation of Authority

Council may delegate to a Committee of Council or the Manager of Development Services the authority to:

- i) approve or refuse applications;
- ii) issue development permits;
- iii) impose conditions on development prior to the issuance of a permit;
- iv) attach conditions to a permit;
- v) enter into agreements with respect to conditions imposed in relation to development permits."
