Business Loss Information

If a business in the downtown core believes they have suffered a financial loss over the course of the reconstruction, a business owner can make a claim through their lawyer. The Township's lawyers and staff would review the claim and request records from the business's financial books and tax returns to review. The Township would then make a determination whether to accept the claim or deny it. It is recommended that before embarking on making an alleged business loss claim that the business owners consult with their lawyers and seek full independent legal advice.

In the event anyone has any general questions, they can contact:

Ben Kester, C.E.T., CRS-S
Director of Public Works & Operations
Township of Uxbridge
905-852-9181 ex. 215

This information being provided by the Township is general information about business loss and is not to be construed as legal advice to anyone or any member of the public. It is highly recommended that you seek your own independent legal advice.
