CARRIED

The owners had no concerns about the conditions of approval.

Jim Rondeau from 17 Colby Rd was present in the audience. He was concerned about the size of the building because it was double the size permitted under the zoning by-law. He was concerned about the location of the driveway. It will need to be changed in order to accommodate the camper. The owner said the new driveway will connect to the present driveway. Jim did not want to look at a 2 storey garage. The owner stated he needed the height to accommodate the storage of the camper.

The neighbour stated the owner did not live on the property. Terry Smith indicated the house is being rented but he plans on moving into the house in July.

Andrew Craddle from 18 Colby Rd was present in the audience. He was concerned about the size and felt it looked like an industrial building. He felt it would be used for commercial uses because it was too large to only store one vehicle and an RV.

Terry stated it would not be used for commercial ventures. The RV is 31 feet long and the garage will store other items such as an ATV and snowmobile.

The neighbours were concerned about potential future home owners using the building for commercial or industrial uses. The agreement required as an approved condition would be registered on title and therefore future home owners would be aware of it.

Marion asked if the building would be heated and if water would be installed. The building would be heated and 1 washroom would be installed. The reason for the washroom in the building was because it was convenient.

DECISION

Moved by Robert Harrison, Seconded by Ed Chillman that application A5/2017 by Terry & Cindy Smith, Part Lot 34 Concession 7 (Uxbridge), 15 Colby Road, Relief from Section 5.1.d to permit a total gross floor area of all accessory buildings and structures on a lot of 116.9 m² for a variance of 56.9 m² and to permit a building height of 5.4 m for a variance of 0.4 m, **BE APPROVED** as applied for the following reasons:

- 1. The application is minor in nature.**
- 2. The development of the land is appropriate and desirable.**
- 3. The intent of the By-law is being maintained.**
- 4. The intent of the Official Plan is being maintained.**

Conditional Upon:

The owner/applicant shall obtain approval from the Region of Durham Health Department for the 2 piece washroom in the proposed garage.

The approval of the variance shall apply only to the total gross floor area and building height as contemplated under Application A5/2017.

The owner/applicant shall obtain a building permit for the construction within one (1) year of the final date of appeal of Application A5/2017.

The accessory building not be used for human habitation, commercial or industrial purposes. An agreement between the Township and the owner be entered into to ensure this requirement. This agreement is to be registered on title.

The construction under the approval of Application A5/2017 shall be in substantial conformity with the design and location of the plans submitted with the application.

The costs of fulfilling the conditions shall be the responsibility of the owner.

CARRIED

Reasons for the Decision:

The application is in line with the by-law and planning objectives and is minor in nature. The owner has agreed to have the condition of adding no habitation, commercial or industrial uses to an agreement which will be registered on title.

The plans are consistent with the other properties on the street and there are no other storage buildings available for the owner except for a carport.
